

**VSystem Anywhere** is our browser-based administration tool for VSystem One. VSystem Anywhere is super easy to use, flexible, customizable, and comes with:

- Intuitive interface.
- Advanced dashboards.
- Powerful reporting, exporting and communication tools.
- Profile editing, scheduling, approval, hours crediting, job setup, letters/e-mails and 100+ other tools.
- All of the most-used features from VSystem One, easily accessed with any modern web browser on your desktop, tablet or smartphone.
- Customize VSystem Anywhere by user or role to show users only the tools they actually need. And reduce your training requirements, too.
- Supports optional two-factor authentication for an additional level of protection.
- No development or customization required.
- Desktop and mobile friendly.

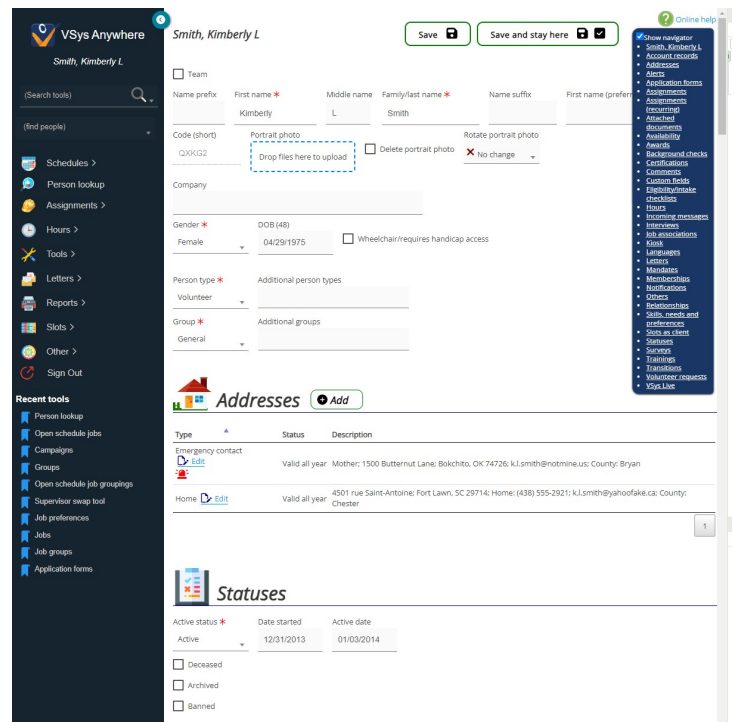

The Home dashboard provides a comprehensive overview of system activity. It includes a search bar, navigation menu, and several data visualization components:

- Application forms:** A bar chart showing the count of forms in 'Approved' and 'Pending' states across various categories like 'New Volunteer Application' and 'Open Schedule Job Selection'.
- Incoming messages:** A bar chart showing the volume of messages categorized by type such as 'Request information', 'SMS handler processed', and 'Volunteering question'.
- Job slots:** A donut chart illustrating the distribution of job slots across categories like 'Animal Control', 'Client Services', and 'Exhibits and classify'.
- Agenda:** A calendar view for 2024, showing daily events and assignments for various users.

The Person lookup interface allows for efficient searching and management of user profiles. It features a search bar, filters, and a results table.
